University Construction Update

As we come to the end of the year 2024, we are thrilled to share about God's faithfulness in the construction of our state-of-the-art university campus located in the town of Zimba, Zambia in Africa.

As at December, we are pleased to share that construction has progressed to window level for our first two classroom and administration blocks; with roofing soon underway. Additionally, the parking area has been clearly marked out in readiness for paving as we head into January 2025.

As we continue with construction, our hope and prayer is to build infrastructure that will stand the test of time and provide our students with the best environment to excel in their studies.

We would love to extend our gratitude for the financial, Spiritual and Physical support we have received to realize the dream of building a university whose vision is to change the world for Christ! One building at a time, we are moving closer to completion. Thank you for being an integral part of this journey.

AWU Awareness Campaign at the National Youth Conference - Pilgrim Wesleyan Church in Zambia

Through the Pilgrim Wesleyan church in Zambia, under the leadership of Bishop Siachitema and the National Youth Leaders, we had the privilege of having a display booth and allocated sessions where- in we spoke to the youth about the university, and also had t-shirt and cap giveaways for those who expressed interest in studying at AWU.

- Construction Update;
- PWC Zambia National Youth Conference - University Awareness Campaign;
- University Dedication Ceremony.

2025 OUTLOOK

- International Wesleyan Leaders Conference - AWUC Awareness Campaign in Jo'burg, South Africa.
- AWUC Dedication Ceremony - 14th January 2025, Zimba, Zambia.
- Proposed University Opening - July 2025.

The youth were highly receptive and expressed a sense of pride in the university being an initiative of the Wesleyan church.

Not only were they proud, but they also expressed an interest in studying at the university as reflected in the interest survey we conducted during the conference.

We collected a total of 234 forms from youth spanning various educational backgrounds. They included: grade school students, grade school graduates, certificate and diploma holders seeking upgrades, university students and graduates exploring new career paths.

Among the four bachelor programs the university hopes to start with, we had the most interest expressed under the Nursing and Theology programs, followed by Secondary education and Primary respectively.

As AWU, we believe we are onto a great start even as we continue our awareness campaigns about the University.

AWU Dedication Ceremony -14th January, 2025

We are delighted to announce and extend an invitation to our university dedication ceremony scheduled to take place in Zimba, at our university Campus on 14th January 2025.

This event marks yet another significant milestone for the university as we dedicate the campus ground and buildings in faith, while looking forward to the registration and approval of the university by the Higher Education Authority in Zambia.

Our hope is to have the university operational by the second half of the year 2025, and the dedication ceremony is just the perfect way start to the year, with that goal in mind.

Join us as we celebrate yet another milestone!
